RESHAPING EDUCATION

Ban Ki-moon Centre for Global Citizens
Xi Education (Xi) is a social enterprise that aims to educate people (undergraduates), equip them with 21st-century skills, and to give the learners a premium interactive experience to enhance their knowledge in research, applied science, and innovation. All of this will be implemented in many programs, which aim to create a solid scientific community of young multi-disciplined youth in Jordan.

The Sustainable Development Goals

**4 QUALITY EDUCATION**
- Target 4.3: Equal access to affordable technical, vocational, and higher education
- Target 4.4: Increase the number of people with relevant skills for financial success
- Target 4.7: Education for sustainable development and global citizenship

The Inspiration and Reason

**THE FOUR INDUSTRIAL REVOLUTIONS**
This industrial revolution, unlike previous ones, is underpinned by the established digital economy and is based on rapid advances in artificial intelligence, the Internet of Things, robots, autonomous vehicles, biotechnology, nanotechnology, and quantum computing, among others.

**THE TOP 10 SKILLS FOR THE FUTURE OF WORK**
- Analytical thinking and innovation
- Complex problem-solving
- Critical thinking and analysis
- Active learning and learning strategies
- Creativity, originality, and initiative
- Attention to detail, trustworthiness
- Emotional intelligence
- Reasoning, problem-solving and ideation
- Leadership and social influence
- Coordination and time management

**EDUCATION STREAMS**
- Mechatronics systems/ IoT
- AI and Data science
- Design, innovation, & mental health
The Methodology

**RESEARCH & DESIGN**
We do our research on what program we can do to serve the people needs then we design the outline.

**BUILD WITH MENTORS**
With the experiences of our team and help from the mentors and experts we have, we will manage to design and build great workshops.

**FEEDBACK & REDESIGN**
We collect feedback from the participants and the stakeholders then our team can redesign to improve the program.

**RUN & TEST**
We run the program/workshop and test it and to see where we can improve and what we can do better.

---

Our Current Programs

**Mental Health JO** (The Jordan National Program for Mental Health Awareness) is a community intervention, with the main aim of raising mental health awareness in Jordan through empowering individuals and communities with knowledge, skills and practical solutions to enhance their psychological well-being and deal properly with psychological disorders.

**AI Marathon** is an annual challenge aimed at creative and innovative products in fields of the fourth industrial revolution (Artificial intelligence, Internet of Things, Big Data, Virtual Reality, Cyber Security and BlockChain) through training the participants and develop their abilities in a competitive environment and motivated by a precise methodology to come out with real projects to solve the problems of community supports the economy and the pace of development.
