# YOUNG WOMEN LEADERS ON CLIMATE ADAPTATION

## OBJECTIVES

By the end of this training, participants will;

- ✓ understand the global and local effects of climate change are, know what climate adaptation is and how it is implemented in gender-sensitive ways.
- ✓ have developed an advanced skills set for confident and effective leadership.
- ✓ have gained the knowledge and confidence to effectively communicate about and advocate for climate adaptation.
- ✓ know how to plan and propose gender-sensitive adaptation projects.
- ✓ have gained confidence in building up their professional networks pursuing a career in the climate adaptation sector.

## IMPACT

Women's unequal participation in decision-making processes and labor markets create inequalities and often prevent women from fully contributing to climate-related planning, policymaking, and implementation. Tackling this discrepancy becomes even more urgent on the African continent, where climate change is hitting the most vulnerable hardest.

The Online Executive Training will showcase the ripple effects of investing in women which leads to effective climate adaptation on local, regional and national levels.
