

# MELVIN MUNA

29, Kenya

Melvin is a 29-year-old Kenyan entrepreneur, who specializes in climate adaptation and resilience-building in the agriculture sector.

## CEO OF MELMAX FARM FRESH

USING SUSTAINABLE AGRICULTURAL PRACTICES TO GROW FRESH VEGETABLES ALL YEAR LONG FOR THE EXPORT AND LOCAL MARKET

### ABOUT MELMAX FARM FRESH

MELMEX FARMFRESH is a farming venture that uses sustainable agricultural practices to grow fresh vegetables all year long even in the driest regions of Kenya through climate-smart methods of irrigation, water harvesting, and the use of hybrid seed varieties

The venture prioritizes training women's groups on climate adaptation to increase their resilience to climate change and farming outputs.

So far, Melmax Farmfresh trained 50 women groups and helped them improve their output by 100%. The organization also employs 30 people as harvesters and graders for fresh produce

The venture proves that climate resilient agriculture has an important role to play in empowering local communities with sustainable jobs

### VOICES OF WOMEN IN AGRICULTURE

Mueni Kalonzo is a smallholder farmer in Kibwezi, Makueni County. Mueni used to practice traditional agriculture, which pushed her deeper into poverty. After attending the training program on sustainable agriculture, she used her skills to improve production on her farm.
